

# Jin-Woo Kim

## Curriculum Vitae

Associate Professor  
 Department of Oral and Maxillofacial Surgery, School of Medicine, Ewha Womans University, Korea

### Educational Background & Professional Experience

- 2019–Present Associate Professor, Dept. of Oral and Maxillofacial Surgery, School of Medicine, Ewha Womans University
- 2002–2015 DDS, MSD, Ph.D – School of Dentistry, Yonsei University, Seoul, Korea
- 2008–2019 Resident, Clinical Fellow, Assistant Professor, Ewha Womans University Mokdong Hospital
- Visiting Professor Dept. of Oral and Maxillofacial surgery, Tokyo Medical & Dental University, Japan (2014)/ Technical University of Munich, Germany (2018)/ Dept. of Plastic surgery, Stanford University (2024)
- Member of Young Korean Academy of Science and Technology (Y-KAST)

### Research Interests

Bone biology, osteonecrosis of the jaw, 3D printed medical devices, deep learning–based diagnosis

### Publications

1. Time Since the Last Intravenous Bisphosphonate Before Dental Procedures and MRONJ Risk in Osteoporotic Patients: A Nationwide Cohort Study. Nature Communications 2025 [Accepted].
2. Interpretable Deep–Learning Approaches for Osteoporosis Risk Screening and Individualized Feature Analysis Using Large Population–Based Data: Model Development and Performance Evaluation. J Med Internet Res 2023.
3. Medication Related Osteonecrosis of the Jaw: 2021 Position Statement of the Korean Society for Bone and Mineral Research and the Korean Association of Oral and Maxillofacial Surgeons. Journal of Bone Metabolism 2021 28(4):279.
4. Gradual, but Not Sudden, Dose–Dependent Increase of ONJ Risk with Bisphosphonate Exposure: A Nationwide Cohort Study in Women With Osteoporosis. Frontiers in endocrinology 2021:12.
5. Uncertainty of current algorithm for bisphosphonate–related osteonecrosis of the jaw in population–based studies. Journal of Bone and Mineral Research 2017 Mar;32(3):584–591.
